# About LOC

LEDES™ (Legal Electronic Data Exchange Standard) Oversight Committee (“LOC”) is an international, voluntary, not-for-profit organization comprised of legal industry representatives and is charged with creating and maintaining open standard formats for the electronic exchange of billing and other information between corporations and law firms. Originally a working group with members from the American Bar Association, Association of Corporate Counsel and PricewaterhouseCoopers, we convened informally in 1998 to create the LEDES98 legal electronic billing format and the UTBMS (Uniform Task Based Management System) coding system for legal ebilling. The LOC is dedicated to using open standards which cater to no one organization or group of organizations to uniformly satisfy the complex needs of the legal industry based on basic principles.

## LOC Basic Principles

Keep it simple

Make it unambiguous

Diverge from existing formats as little as absolutely necessary

Only ask for information the law firm is able to provide from their financial system

Meet the needs of corporations, law firms and legal industry software vendors to the maximum extent possible consistent with the first four criteria

Incorporated in 2000
